SUBJECT | United O7 Americas welcomes new Managing Partner Robert Jacquet

HOUSTON – Welcome aboard, Rob! Rob Jacquet will join United O7 Americas Inc. as Managing Partner, based in Houston, Texas USA. We are delighted to introduce Rob as our newest team member at United O7. He will join Rene Pedersen and Eileen Wang at the United O7 Americas office.

Rob comes to United O7 with over 22 years of experience in the Multipurpose/Heavy Lift sector, gained while working at BBC Chartering, Asia Project Chartering and Argosy Shipping. Rob's knowledge of the MPP sector, strong network, expertise in providing customized solutions to complex logistical challenges and reputation for maintaining productive client relationships through proactive engagement and effective collaboration will help strengthen United O7's position in the Americas.

"I am very pleased to start working with my new colleagues Eileen Wang and Rene Pedersen. They both have a wealth of experience and have built close relationships with our US customers over the years. We plan on further expansion with the customer service for the Americas," said Rob Jacquet.

United Heavy Lift GmbH & Co. KG and Ocean7 Projects ApS joined forces in 2019 and have since opened offices in Dubai, Houston, and Kuala Lumpur (with subdivisions in Beijing, Tokyo, and Singapore) under the United Ocean7 brand (UO7), providing clients with their combined expertise and experience and access to a large and diverse fleet. Both companies have extensive heavy lift fleets that complement each other very effectively.

Managing Partner of UHL Lars Bonnesen adds, "We are excited to welcome Rob to United O7 as we look forward to expanding our activities and continue building our brand. Rob's leadership, track-record and broad experience will be essential as we continue to expand our business and services".

About United Heavy Lift

United Heavy Lift is one of the leading providers of ocean transportation services for heavy lift, breakbulk, and project cargo. UHL is a privately owned company, founded by Mr. Lars Rolner, and has successfully served the project and break-bulk market since our debut in April 2015. Our services include chartering, cargo operations, project management, technical supervision, and engineering solutions for sophisticated marine transportation projects. Our state-of-the art fleet consists of the youngest and most environmentally friendly vessels in the heavy lift segment. Our team of over 50 naval architects, marine engineers, and port captains provide a range of engineering solutions to our clients to ensure that each voyage is flawlessly planned and executed.
